SUMMARY

Computer Science Engineering student with hands-on experience in full-stack web development, Java, and AI-powered applications. Skilled in MERN, Python, and REST API development with a strong understanding of OOPs, DBMS, and problem-solving. Experienced in building scalable projects, participating in hackathons, and developing real-world software solutions. Eager to contribute technical skills and continuous learning in a Full Stack Engineer role.

EDUCATION

K. Ramakrishnan College of Engineering

Trichy, India

Bachelor of Computer Science and Engineering – CGPA 7.53

2023 - 2027

TECHNICAL SKILLS

- **Languages:** English, Tamil, German
- **Programming Languages:** C, Python, Java, JavaScript
- **Frameworks:** AngularJS, ReactJS, NodeJS
- **Tools:** Git, GitHub
- **Databases:** MongoDB, MySQL

PROJECTS

Learning Path Finder | [Github-link](#)

- Developed an AI-powered personalized learning platform using React.js, Node.js, Express.js, and MongoDB.
- Integrated Google Gemini AI for skill assessment, progress tracking, and personalized learning recommendations.

Faculty Availability Checking System | [Github-link](#)

- Developed an application for Faculty Availability Checking System to streamline faculty scheduling
- Implemented real-time availability tracking, authentication features, and efficient data management to improve communication and scheduling accuracy.

Avex – GitHub Repository Handler | [Github-link](#)

- Built a responsive for Avex with optimized UI/UX design to enhance customer.
- Integrated dynamic frontend components and structured navigation to improve user experience and maintainability.

Quiz App | [Github-link](#)

- Developed an AI-powered Quiz Application using the MERN stack and Google Gemini API to generate quiz content.
- Implemented secure user authentication, real-time score tracking, and AI-based question generation to enhance learning.

SMART INDIA HACKATHON 2025:

Loan Utilization Tracking App | [Github-link](#)

- Developed a React Native mobile app for real-time loan tracking with geo-tagged and time-stamped verification.
- Integrated Firebase for authentication, data storage, and secure backend operations.

AI-driven Multilingual Public Health Chatbot | [Github-link](#)

- Built a multilingual chatbot using Dialogflow, Twilio, and WhatsApp for public health awareness.
- Used MongoDB for conversation management and user data handling.

ACHIEVEMENTS

- Secured Second Prize in “Hahes Over Roses 3.0” at MindKraft 2026, an International Level Techno-Management Fest conducted by Karunya Institute of Technology and Sciences, Coimbatore.

CERTIFICATES

- AWS Certified Cloud Practitioner certification | AWS | [certificate](#)
- Coding Development | Deloitte | [certificate](#)
- Fundamentals of Object-Oriented-Programming-Language | NPTEL | [certificate](#)
- Java Programming | NPTEL
